

1

A diagram showing a three-way junction. A central vertical line segment is connected to a horizontal line segment at its base. A third branch extends from the vertical line segment at a point about one-third of the way down from the top. Each of the three branches ends in a solid black dot. The number '1' is placed to the left of the top dot, '2' is placed to the left of the middle dot, and '3' is placed to the left of the bottom dot. The lines are thick and black.
